Verdict on closed ticket #88582 (duplicate-cluster backfill)

GPS Exemption Request Approved
A detailed review of the GPS data received for invoice 1865697140 confirmed GPS compliance despite the event IDs submitted via GPS being incorrect.
Important Notice:
The GPS Deviation on this trip may have been caused by:

User error - Your company should provide training for drivers on proper GPS application utilization

TPI software issues - If using third-party software, share this information with your TPI

Your GPS Exemption Request for 1865697140 is approved.
The invoice will be made attestable within two business days.

Note: Exceptions granted for user error or TPI software issues will not be available indefinitely. Please work to resolve these issues.
